PowerLite[®] 1810p **Quick Setup**

Connect the projector to your notebook

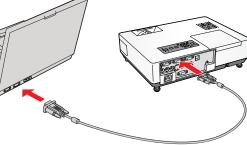

Power cord

VGA computer cable

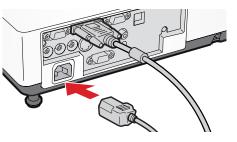

Connect the computer cable to the blue **Computer1** port on the projector.

Connect the other end to your notebook's video-out or \bigcirc monitor port.

> **NOTE:** If your notebook has a DVI connector, you need to use an optional DVI-to-VGA adapter with the included computer cable (see your computer's documentation).

Connect the power cord to the projector, then plug the other end into an electrical outlet.

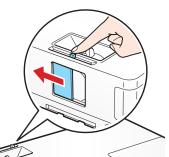

Turn on your equipment

Turn on your notebook.

Open the A/V Mute slide (lens cover).

NOTE: The slide must be

Before using the projector, make sure you read the safety instructions in the User's Guide on your projector CD.

Follow these instructions to connect the projector to your notebook. For other setup options, see your User's Guide.

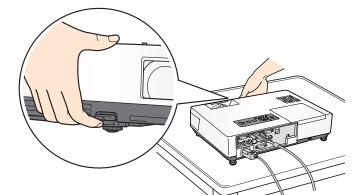

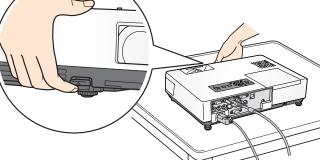

Adjust the image

If you've turned on your notebook and you don't see an image, press the Source Search button on the projector or the Search button on the remote control to select the image source.

NOTE: If you still see a blank screen or have other display problems, see the troubleshooting tips on the back of this sheet.

To raise the image, press the foot release button

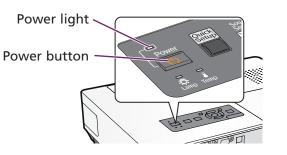

opened completely.

Make sure the **Power** light is orange and not flashing.

Press the 🖒 **Power** button to turn on the projector.

To shut down the projector:

- **1**. Press the **O Power** button twice.
- 2. When the orange light stops flashing and the projector beeps, you can unplug the projector.

for the front adjustable foot and lift the front. Release the button to lock the foot in position.

Turn the focus ring to sharpen the image.

Turn the zoom ring to reduce or enlarge the image.

> Focus Zoom

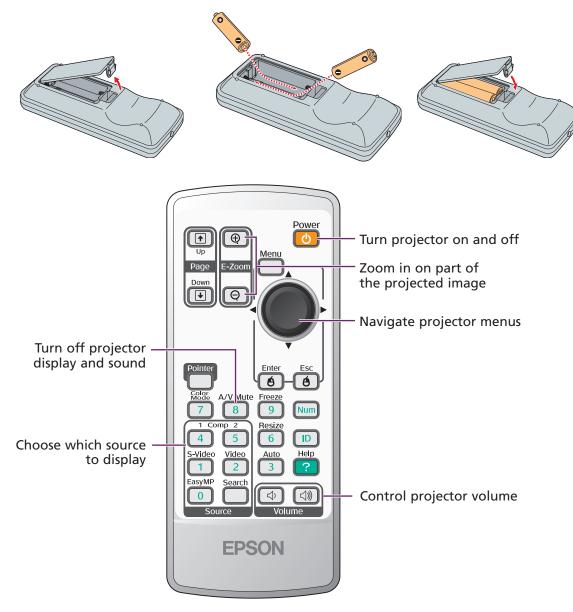

If your image looks like , , , , , or , press the **Quick Setup** button on the projector and follow the on-screen instructions.

Quick Setup PowerLite 1810p

Using the remote control

If this is your first time using the remote, make sure its batteries are installed as shown (two AAA batteries).

You can use the remote control to operate the projector. With the USB cable, you can use the remote as a wireless mouse. For more information on using the remote control, see your *User's Guide*.

Where to get help

Telephone Support Services

To use the Epson PrivateLine[®] Support service, call (800) 637-7661 and enter the PIN on the Epson PrivateLine Support card included with your projector. This service is available 6 AM to 6 PM, Pacific Time, Monday through Friday, for the duration of your warranty period. You may also speak with a projector support specialist by dialing one of these numbers:

Troubleshooting If you see a blank screen...

If you see a blank screen or the **No signal** message after turning on your notebook, check the following:

- Make sure the **Power** light on the projector is green and not flashing, and the **A/V Mute** slide (lens cover) is open.
- Press the **Source Search** button on the projector or the **Search** button on the remote control to select the computer as the image source.
- If you're using a Windows[®] notebook, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/LCD or have an icon such as [△]/[○]. You may have to hold down the Fn key while pressing it. Allow a few seconds for the projector to sync up after changing the setting.

If the projector and notebook don't display the same image...

If your image displays either on the projector or notebook, but not on both, check the following:

Windows

Try using the **CRT/LCD** or \triangleq / \bigcirc key as described above. On most systems, this key lets you toggle between the LCD screen and the projector, or display on both at the same time.

If that doesn't work, check your monitor settings to make sure both the LCD screen and the external monitor port are enabled.

- From the Windows Control Panel, open the **Display** utility. In Windows Vista,[™] right-click on the desktop and select **Personalize**, then select **Display Settings**.
- In the Display Properties dialog box, click the Settings tab, then click Advanced. In Windows Vista, click Advanced Settings.
- 3. The method for adjusting the setting varies; you may have to click a **Monitor** tab, then make sure the external Monitor port is set as your primary display and/or enabled.

- U.S.: (562) 276-4394, 6 AM to 6 PM, Pacific Time, Monday through Friday
- Canada: (905) 709-3839, 6 AM to 6 PM, Pacific Time, Monday through Friday

Toll or long distance charges may apply.
